Meta working on a platform to rival Twitter

REUTERS
March 10

METAPLATFORMS IS exploring plans to launch a new social media app in its bid to displace Twitter as the world's "digital town square".

"We're exploring a stand-alone decentralized social network for sharing text updates. We believe there's an opportunity for a separate space where creators and public figures can share timely updates about their interests," a Meta spokesperson told Reuters in an emailed statement.

Meta's app will be based on a similar framework that powers Mastodon, a Twitter-like service that was launched in 2016.

A Twitter-like app would allow Meta to take advantage of the current chaos at the Elon Musk-led company, where cost-cutting has been rampant. Twitter has been struggling to hold on to its advertising base since Musk's takeover of the platform last year. Companies have pulled back spending following Twitter's move to restore suspended accounts and release a paid account verification that resulted in scammers impersonating firms.

Meta's plans come at a time when its biggest platform, Facebook, is struggling to attract the attention of a younger audience, while its huge investments in the metaverse, a virtual world where users interact and work, show little signs of paying off, at least in the near term.

Its video-sharing app, Instagram, is also facing stiff competition as content makers or hit influencers abandon the platform for TikTok. It was not immediately clear when Meta would roll out the new app.

"The history of Meta is that

they are much better acquirers than they are innovators... as far as copying Twitter, this is just a defensive move," said Thomas Hayes, chairman and managing member of New York-based Great Hill Capital.

"They're just trying everything... at least with a mini blogging site like Twitter, there's some expectation that it could start to make money out of much quicker timeline than the metaverse investment."

Meta's investments in the metaverse will not drive revenue growth until 2030, analysts have said. Meta shares were marginally higher at \$181.7 in early trade on Friday. They have gained about 51% so far this year.

EXPLAINER

BUMPY ROAD FOR BIKE TAXIS

The government of the national capital territory (NCT) of Delhi has banned bike-taxis from plying within its jurisdiction, even as these are free to ply next doors, in Uttar Pradesh and Haryana. Aggregators for such taxis are reportedly mulling over moving the courts against the NCT ban. **Sarthak Ray** takes a look at the issue

Why Delhi banned bike taxis

The Delhi Transport Department issued an order on February 18 to ban bike (motorised two-wheeler taxis) in the NCT, citing a violation of the Motor Vehicles Act 1988. It ordered bike taxi service platforms to immediately cease services "to avoid prosecution and penalty."

The Transport Department said: "It has been brought to the notice that two-wheelers having Non-Transport (Private) registration mark/number are being used to carry passengers on hire or reward which is purely commercial operation and in violation of Motor Vehicle Act 1988.... The use of two-wheelers for commercial purposes is in violation of the Motor Vehicles Act, 1988." Per the department, app-based firms portraying themselves as aggregators violates the 1988 Act.

₹5,000
FINE FOR FIRST VIOLATION OF BAN, AS PER NCT GOVT

₹10,000
FINE AND UPTO 1-YR IMPRISONMENT FOR SECOND VIOLATION

₹1 lakh
FINE ON AGGREGATORS UNDER THE SECTION 193 (2) OF MVA 1988

2015
HARYANA ALLOWED BIKE TAXIS

What the 1988 Act says

It is not as if the the 1988 Act summarily bans the use of motorised two-wheelers for commercial purposes. But it does lay down specific conditions that must be fulfilled if such vehicles are to be used for commercial ends. Section 75 of the Act lays down the provisions for any scheme involving renting of motor cabs. It says that the Centre, by notification in the official Gazette, make a scheme to regulate the business of renting of motor cabs or motor cycles to persons desiring "to drive either by themselves or through drivers, motor cabs or motor cycles for their own use and for matters connected therewith."

The scheme must provide for licensing of operators, including grant, renewal and revocation of such licences, form of application and licences and the particulars these would contain, fee to be paid with the application, among others.

Motor Vehicle Aggregator Guidelines 2020

In keeping with the 1988 Act, the Centre notified the Motor Vehicle Aggregator (MVA) Guidelines in 2020, which laid down conditions for granting of a licence to an aggregator, including compliances with regard to vehicles, norms on regulation of fares, etc. States must set their own norms based on MVA guidelines.

Delhi's MVA scheme

Even Delhi's own MVA scheme, notified July last year, allows "for licensing and regulation of aggregators providing passenger transport services." The scheme applies to "Aggregators which have on-boarded 2-W, 3-W, and 4-W motor vehicles only". So, Delhi does provide for bike-taxis if the two provisions of the notified scheme are read together. Experts say that aggregators are in a bind because of the issue of non-transport registration of the bikes.

Delhi's penalties, and what the norms in some other states are

As per an Indian Express report, the NCT sees anywhere between 5 lakh and 7.5 lakh bike-taxi trips every week. Delhi will be imposing significant quantafines on those operating bike taxis in the NCT. The first offence will lead to a fine of ₹5,000 while the second offence will attract a fine of ₹10,000 and imprisonment upto

one year. That apart, the driver's licence will be suspended for a period of three months, in keeping with a Supreme Court direction. The NCT transport department has taken a strict view of the digital platforms facilitating the bike taxi services. It says, "some digital platforms are... engaging themselves as an aggregator in

contravention of the provision of Section 93" and they will be handed a fine of up to ₹1 lakh.

In contrast, neighbouring states such as Uttar Pradesh and Haryana continue to allow bike-taxis, or at the very least, so far haven't taken any adverse action against these or the aggregators that facilitate these. Haryana

allowed contract-carriage of passengers by motorised two-wheelers as far back as 2015. It was the second state in the country to do this, after Goa. Uttar Pradesh changed the rules in 2018 to allow bike taxis to ply—not just by aggregators like Ola, Rapido, Uber, but also by individuals/ groups of individuals.

Rupee holds up well to dollar's rally, almost unchanged week-on-week

Centre puts out advisory as influenza virus kills 2

REUTERS
Mumbai, March 10

THE RUPEE WAS little changed on a week-on-week basis, avoiding the losses that its Asian peers incurred due to the rally in the dollar index, aided by dollar sales by foreign banks.

The rupee marginally gained to close at 82.04 to the dollar on Friday and was up about 0.1% for the week. The local currency was in the range of 81.60- 82.30 range for the week.

The rupee reached this week's low of 82.30 on Wednesday on the back of comments by US Federal Reserve Chair Jerome Powell that opened the door to a larger 50-basis-point rate hike at this month's meeting. US yields and the dollar index jumped on Powell's comments.

The rupee managed to recover, helped by persistent dollar sales by a large foreign bank, likely on behalf of its custodial and offshore

clients, according to traders.

The rupee mostly shrugged off Powell's signal of higher and possibly faster interest rate hikes, said Amit Pabari, managing director at CR Forex.

It is likely that foreign portfolio and investment flows were helping the rupee "have the upper hand among

Asian currencies", Pabari said.

Bond yields dip tracking US peers

Government bond yields ended lower on Friday, mirroring the drop in US yields. The 10-year benchmark 7.26% 2032 bond yield ended at 7.4321%, after closing

ing at 7.4449% on Thursday. The yield rose one basis point (bps) for the week.

"Domestic yields were lower following the sharp decline in US yields. Traders stayed light ahead of non-farm payrolls data," said VRC Reddy, treasury head of Karur Vysya Bank. US yields fell on Thursday and Friday as the risk appetite weakened after an equities selloff and as data showed US initial jobless claims rose more than expected last week. The yield on two-year bonds dropped by 25 bps to 4.82% since Wednesday's close, while that on the 10-year paper fell 12 bps to 3.85%.

ANONNA DUTT
New Delhi, March 10

WITH KARNATAKA AND Haryana reporting one death each of patients suffering from the H3N2 subtype of the influenza A virus, Union Health Minister Mansukh Mandaviya held a review meeting to discuss preparedness in view of the rising cases. The Centre on Friday issued an advisory to states. "Government of India is working with States & extending support for public health measures to address the situation," Union Minister Mansukh Mandaviya said in a tweet.

According to data provided by the government, 3,038 cases of influenza have

been reported across the country as of March 9 – 1,245 in January, 1,307 in February, and 486 in March. There were 13,202 confirmed cases of influenza in 2022.

In Karnataka, Hire Gowda, 82, from Alur taluk in Hassan district, died on March 1. The 82-year-old, who was hypertensive and asthmatic, was admitted to a hospital on February 24 after he complained of

cough and cold. Lab reports confirming that he was infected with the H3N2 virus came on March 3, two days after his death.

In Haryana's Jind district, a

56-year-old who was suffering from lung cancer, tested positive for H3N2 infection in January at PGIMS, Rohtak, and died at home on February 8.
